

FOR IMMEDIATE RELEASE

TALENT TECHNOLOGY CUSTOMERS DEMONSTRATE PEOPLESFT RECRUITING SOLUTIONS AT ORACLE® OPENWORLD 2008 CONFERENCE

The New York Times and Symantec presentations showcase how Resume Mirror automates and streamlines the recruiting and application process for both candidates and recruiters

Vancouver, BC and San Francisco, CA, — September 24, 2008 — Talent Technology Corporation, provider of award-winning Resume Mirror CV/resume parsing and extraction software for corporate HR departments, is pleased to announce that over 200 Oracle PeopleSoft HCM users attended The New York Times and Symantec customer presentations at the Oracle OpenWorld 2008 Conference in San Francisco.

The presentations highlighted Talent Technology's Resume Mirror Extraction Enterprise (RMX Enterprise) technology and its successful deployment by both organizations to automate the capture, processing, and delivery of resume data into the Oracle PeopleSoft HCM module. Resume Mirror CV/resume data extraction and capture capabilities along with Resume Mirror Search's advanced conceptual search are the only add-on modules of their kind validated and certified by Oracle.

Amongst the successes outlined in the Symantec session, there were two in particular that highlighted the value that RMX Enterprise delivers:

- **For HR Managers and Recruiters:** highly accurate, automated extraction of resumes received using RMX Enterprise. This meant far less manual data entry for HR managers and recruiters.
- **For Candidates:** the application process was effortless with the peace of mind that the original CV/resume was delivered to the Oracle/PeopleSoft system along with complete extracted CV/resume data

Processing millions of candidate resumes every month, RMX Enterprise is the CV/resume processing and extraction solution of choice for companies in the Fortune 1000, recruiting firms and job boards.

Media, customers, and partners also visited Talent Technology in booth #324 in Moscone South at Oracle OpenWorld 2008 to learn how Resume Mirror Extraction and Resume Mirror Search can add value to Oracle HCM investments.

Contact Talent Technology at info@talenttech.com or 604-278-4414 for more information, including copies of The New York Times and Symantec Oracle OpenWorld Presentations.

Resume Mirror Extraction Enterprise and Resume Mirror Search Enterprise are available directly from Talent Technology Corporation. To schedule a live demo of Talent Technology's resume parsing and extraction and conceptual search technology, visit www.talenttech.com.
